Digital Measuring System Manual

Digital Display

Measuring Arm

The digital measuring system is provided with a magnetic display that is mains-independent, quasi-absolute magnetic display with lowest power technology for direct position and angle sensing, e.g. on end stop systems. Owing to easy integration the system offers maximum flexibility to the customer.

Features:

- lowest power LCD with metric and decimal-inch display
- long service life without battery change
- Very small and compact design
- Battery operation 1.5 VDC to 3VDC
- Display resolution 0.01 mm

The normal stop beam is used as end stop.

The Digital Measuring System can be fitted onto:

MORSØ-F

MORSØ-H

MORSØ-EH AND EHT

MORSØ-EH DIGITAL

MORSØ-EHXL
